

## **ADDENDUM TO BREVILLE VTT311 ELEMENTS TOASTER**

### **High Lift Feature**

Please note that the loading handle does not lock in the high lift position as described on page 5 of the user instructions.

To use the high lift feature, simply lift the loading handle upwards from its rest position when toasting is complete in order to raise the toast and make it easier to remove.

This addendum does not affect the operation of the lift-and-look feature.
