HOLD ON ONE SEC!

Before making your first coffee, follow these simple steps to clean your machine.

SUPER IMPORTANT

CAUTION

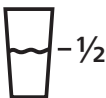

To avoid potential damage to the unit, do not plug in machine without water in unit. **Follow these instructions for when to plug in machine.**

WASH FIRST

- 1 Wash the tumbler, lid, straw, coffee filter, scoop, and brew basket in a mix of mild detergent and water
- 2 Rinse each thoroughly
- ! **Do not submerge unit base**

RUN ONCE WITH WATER

- 1 Start with the unit unplugged.
- 2 Measure water using tumbler.
- 3 Add water
- 4 Plug unit in, switch on **O/I** at rear. Press the () button.
- 5 Discard water. Rinse tumbler.

HOW TO MAKE

HOT COFFEE

- 1 Fill coffee cup with water. Pour into reservoir.
- 2 Use small scoop to add grounds based on water level in reservoir.
- 3 Turn on the machine at the **O/I** button.
- 4 Place cup. Press ().

ICED COFFEE

- 1 Add water to tumbler water line. Pour into reservoir.
- 2 Add one large scoop of grounds.
- 3 Add ice to the tumbler ice line.
- 4 Turn on the machine at the **O/I** button.
- 5 Place tumbler. Press ().
